

Care received by patients with Chronic Obstructive Pulmonary Disease (COPD): National data collection

This general practice is involved in a national project to help make the care of patients COPD better.

This project is called the **National COPD Audit Programme**.

We will be collecting information about all patients diagnosed with COPD and the care they receive from their GP surgery. No confidential information will be collected.

This information will be used to help make improvements to the care which COPD patients receive.

For more information about the audit, please ask a member of staff for a leaflet.
