

Steps to fracture liaison service effectiveness: importance of treatment recommendations

We would like to thank the fracture liaison service (FLS) community for their ongoing commitment to the FLS-DB audit. The FLS-DB will continue to support FLSs in England, Wales and Northern Ireland to provide data to ensure high-quality patient care.

Citation for this report

Royal College of Physicians. *Fracture Liaison Service Database annual report. Steps to fracture liaison service effectiveness: importance of treatment recommendations*. RCP, 2026.

This report was led by: **Muhammad Kassim Javaid, FLS-DB clinical lead**, supported by the Fracture Liaison Service Database team:

Rumneet Ghuman, FLS-DB project manager, RCP

Andrew Judge, professor and senior statistician, University of Bristol

Rita Patel, research fellow, University of Bristol

Theresa Wong, programme coordinator, RCP

Jonathan Roberts, technical consultation, Crown Informatics Limited

Sunil Nedungayil, FFFAP senior clinical lead, RCP

Laura Pugh, FLS-DB clinical fellow

Rachael Hodges, FFFAP programme manager (interim), RCP

Rosie Dickinsons, FFFAP programme manager, RCP

Bonnie Wiles, deputy programme manager, RCP

Ian Atkinson, CQID executive director for improvement, RCP

Rafael Pinedo-Villanueva, assistant professor of health economics and outcomes research, NDORMS, University of Oxford

Data analysis was performed by Bristol NIHR Biomedical Research Centre, Musculoskeletal Research Unit, Translational Health Sciences, Bristol Medical School, University of Bristol
