1.8 Data quality & analysis plan	**Asthma and COPD primary care** The primary care audit is a continuous, single point extraction audit. The datasets will be reviewed and streamlined every audit cycle. This will involve consultation (including with patients/carers) and reappraisal of the evidence. Data are extracted directly from general practice electronic systems for all practices within Wales using Read/SNOMED code information. DHCW clean and analyse data before sending to Imperial College London and RCP for review and report writing.
1.9a Link to the outlier policy*	Not applicable as data is auto extracted from 100% of Welsh GP surgeries.
1.9b Link to the cause for concern policy*	*Not applicable.* *NRAP does not operate a cause for concern policy due to no current identifiers that are regularly reported categorised as cause for concern indicators. NRAP continue to review the HQIP cause for concern guidance -* NCAPOP-Cause-for-Concern-Guidance-Final-E-and-W-Feb-2019.pdf.
